

ABOUT Who am I?

Hey there, thanks for stopping by. This is my portfolio website. Having had interest in computers from childhood to pursuing masters in computer engineering and falling in love with photography during the journey. Life has been an amazing learning ride driven by logical and creative thinking. It now feels like to put what I have learnt in good use. From logo design to software projects. Please feel free to contact me if i could be of any help. And if you thought what is behind the name Pixellage!!! Well, just like atoms make a matter, digital screen is a collage of millions of pixel. Thus the name Pixel+collage= Pixellage. A classroom idea years ago :). Regards.

-Tsewang Stanzin

SKILLS

CORE PROGRAMMING

C, C++, Java, Python

WEB DEVELOPMENT TOOLS

HTML, CSS, JavaScript, Bootstrap, etc.

DATABASE MANAGEMENT

PHP, MySQL , PythonMySQL

GRAPHIC DESIGN

Adobe (Illustrator,AE,Photoshop), Corel Draw

PHOTOGRAPHY

Wildlife, Landscape, Portrait, Astrophotography

LEVEL

PROGRAMMING

90%

WEB DEVELOPMENT TOOLS

THE JOURNEY

Computer Engineer

Presently

Indian Institute of Astrophysics

Currently at the Indian Astronomical Observatory of the Indian Institute of Astrophysics, Dept. of Science and Technology, Govt. of India. I undertake observation, data analysis and maintenance of the state of the art telescope and computer systems

of the [GROWTH-India telescope](#). Also developing programs for analysis of huge log files generated from various other telescopes and weather stations here in Hanle. My work allows me to gaze into astonishing vastness and understanding of the universe.

Research Associate

Clairvortex Pvt. Ltd.

I worked for a short stint in Delhi as Research Associate at Clairvortex Pvt. Ltd., a patent management company.

Then these mountains , clear blue sky and the stars called me back. :)

Developer

Independently

During 6 years of college I undertook various internal and internship projects. Developed website for travel agents and hotels in Leh. Also designed logo and sold photographs for their branding.

EDUCATION

Engineering

2012 - 2018

I pursued till M.Tech in Computer Science and Engineering. My thesis was entitled "Bio-inspired Approaches for Minimum Spanning Tree Construction in Cognitive Radio Networks". I have had deep interest in theory of computation, data encryption, operating system, software engineering, networking, programming, artificial intelligence, discrete mathematics and database management systems.

Schooling

till 2012

High school with Physics, Chemistry , Mathematics and Computer.
